**Roll Over, Tchaikovsky!** Stephen Amico 2014-06-15 Centered on the musical experiences of homosexual men in St. Petersburg and Moscow, this groundbreaking study examines how post-Soviet popular music both informs and plays off of a corporeal understanding of Russian male homosexuality. Drawing upon ethnography, musical analysis, and phenomenological theory, Stephen Amico offers an expert technical analysis of Russian rock, pop, and estrada music, dovetailing into an illuminating discussion of homosexual men's physical and bodily perceptions of music. He also outlines how popular music performers use song lyrics, drag, physical movements, images of women, sexualized male bodies, and other tools and tropes to implicitly or explicitly express sexual orientation through performance. Finally, Amico uncovers

how such performances help homosexual Russian men to create their own social spaces and selves, in meaningful relation to others with whom they share a "nontraditional orientation."

**Eat Like a Fish** Bren Smith 2019-08-05 'I used to be a commercial fisherman, chasing your dinner on the high seas for a living, but now I farm twenty acres of saltwater, growing a mix of sea greens and shellfish.' In *Eat Like a Fish* Bren Smith - a former commercial fisherman turned

restorative ocean farmer - shares a bold new vision for the future of food: seaweed. Part memoir, part manifesto, through tales that span from his childhood in Newfoundland to his years on the high seas aboard commercial fishing trawlers, from pioneering new forms of ocean farming to surfing the frontiers of the food movement, Smith introduces the world of sea-based agriculture and advocates getting ocean vegetables onto our plates. There are thousands of edible varieties in the sea! Here he shows how we can transform our food system while enjoying delicious, nutritious, locally grown produce, and how restorative ocean farming has the potential to create millions of new jobs and protect our planet in the face of climate change, rising populations, and finite food resources. Also included are recipes from acclaimed chefs Brooks Headley and David Santos. Written with the humour and swagger of a fisherman telling a late-night tale, this is a monumental work of deeply personal food policy that will profoundly change the way we think about what we eat.

Attempt to Impeach Donald Trump - Declassified Government Documents, Investigation of Russian Election Interference & Legislative Procedures for the Impeachment White House 2017-06-29 Since the beginning of his presidential term president Donald Trump is faced with constant criticism for his business projects in Russia and his connections with the Russian authorities. On June 12th 2017 US Congressman Brad Sherman submitted the Resolution for Impeaching Donald John Trump, President of the United States, for high crimes and misdemeanors. This book presents the latest investigation results, declassified documents, transcripts and reports of various US security agencies and other actors involved in the investigation of the Russian Interference in the 2016 United States Elections and the connection of the American president with the Russian Government. *Freedom of Speech in Russia* Daphne Skillen 2016-11-25 This book traces the life of free speech in Russia from the final years of the Soviet Union to the present. It shows how long-cherished hopes for an open society in which people would speak freely and tell truth to power faded under Gorbachev's glasnost; how free speech was a real, if fractured, achievement of Yeltsin's years in power; and how easy it was for Putin to reverse these newly won freedoms, imposing a 'patrimonial' media that sits comfortably with old autocratic and feudal traditions. The book explores why this turn seemed so inexorable and now seems so entrenched. It examines the historical legacy, and Russia's culturally ambivalent perception of freedom, which Dostoyevsky called that 'terrible gift'. It evaluates the allure of western consumerism and Soviet-era illusions that stunted the

initial promise of freedom and democracy. The behaviour of journalists and their apparent complicity in the distortion of their profession come under scrutiny. This ambitious study covering more than 30 years of radical change looks at responses 'from above' and 'from below', and asks whether the players truly understood what was involved in the practice of free speech.

**Gain-Cell Embedded DRAMs for Low-Power VLSI Systems-on-Chip** Pascal Meinerzhagen 2017-07-06 This book pioneers the field of gain-cell embedded DRAM (GC-eDRAM) design for low-power VLSI systems-on-chip (SoCs). Novel GC-eDRAMs are specifically designed and optimized for a range of low-power VLSI SoCs, ranging from ultra-low power to power-aware high-performance applications. After a detailed review of prior-art GC-eDRAMs, an analytical retention time distribution model is introduced and validated by silicon

measurements, which is key for low-power GC-eDRAM design. The book then investigates supply voltage scaling and near-threshold voltage (NTV) operation of a conventional gain cell (GC), before presenting novel GC circuit and assist techniques for NTV operation, including a 3-transistor full transmission-gate write port, reverse body biasing (RBB), and a replica technique for optimum refresh timing. Next, conventional GC bitcells are evaluated under aggressive technology and voltage scaling (down to the subthreshold domain), before novel bitcells for aggressively scaled CMOS nodes and soft-error tolerance as presented, including a 4-transistor GC with partial internal feedback and a 4-transistor GC with built-in redundancy.

**Rethinking Class in Russia** Suvi Salmenniemi 2016-04-08 Social differentiation, poverty and the emergence of the newly rich occasioned by the collapse of the Soviet Union have seldom been analysed from a class perspective. Rethinking Class in Russia addresses this absence by exploring the manner in which class positions are constructed and negotiated in the new Russia. Bringing an ethnographic and cultural studies approach to the topic, this book demonstrates that class is a central axis along which power and inequality are organized in Russia, revealing how symbolic, cultural and emotional dimensions are deeply intertwined with economic and material inequalities. Thematically arranged and presenting the latest empirical research, this interdisciplinary volume brings together work from both Western and Russian scholars on a range of spheres and practices, including popular culture, politics, social policy, consumption, education, work, family and everyday life. By engaging with discussions in new class analysis and by highlighting how the logic of global neoliberal capitalism is appropriated and negotiated vis-à-vis the Soviet hierarchies of value and worth, this book offers a multifaceted and carefully contextualized picture of class

relations and identities in contemporary Russia and makes a contribution to the theorisation of class and inequality in a post-Cold War era. As such it will appeal to those with interests in sociology, anthropology, geography, political science, gender studies, Russian and Eastern European studies, and media and cultural studies.

To Catch a Fish Kyoko Heshiimu 2017-02-06 The poems collected in To Catch a Fish depict vividly the absurdities of dating in New York City and the personal explorations of a woman in urban society. The writing is a combination of confession and imagination. It calls into question what is fiction and what is truth and explores moments where innocence and scandal coexist.

**A Fish, a Frog, and a Gnome** Jennise Conley 2012-05-01 Did you know that even a newborn baby gains lifelong benefit from story time? Neuro-educational studies have found that the brain is most impressionable to the nuances of languages during the first three years of life, and that the ritual of storytelling enhances problem-solving, decision-making, and even an understanding of abstract ideas. In fact, reading to your young children is more than a shared pleasure; it's an essential routine that is best introduced long before your children express an interest. Now, education specialist Jennise Conley, founder of the Energy and Sciences Education Initiative, presents an indispensable, early-development resource in the form of her whimsical, charming children's book, *A Fish, a Frog, and a Gnome: My Favorite Poems*. Through three easy-to-read, playful rhymes and vibrant illustrations, this book is certain to help engage children and students in a lifelong joy of reading while helping to sharpen their cognitive abilities and tap into the power of their young imaginations. Presented in large, clean letters with eye-catching, colorful pictures, the three delightful, whimsical rhymes featured in this book will help start an early ritual of reading that is both fun and reader friendly, while at the same time enhancing cognitive development. Themed around three wishes, the rhymes introduce children to this abstract notion through clear, comprehensible stories. "The First Wish" features a young child who wishes to catch a fish, and instead finds something very different. "The Second Wish" spotlights a bespectacled frog, who wishes that he was a dog with surprising, silly results. "The Third Wish" finds a gnome at home, grumpily sleeping on a piece of foam. In addition, the book features a letter to parents to help them make the most of story time. From instructions on the best practices for reading to newborns to the importance of

repetition in the human brain, this instructional letter will enable any parent to make the most out of reading to lend comfort, facilitate the processing of information, and make story time a perennially fun experience for your child. By portraying books as a treasure trove of exciting mysteries and new ideas to discover, you'll share with your children a magical world that will become a natural, and deeply meaningful, part of your child's life.

**How to Tempt a Fish** Popular Mechanics 2008 Filled with more fishing lore than one angler could amass in a lifetime, here is a classic volume that could come only from the editors of Popular Mechanics. Originally published in 1950, How to Tempt a Fish draws its knowledge from expert fishermen of all stripes--fly, lake, surf, deep-sea, and even ice fishing

enthusiasts. Unique in that it covers so many aspects of one of America's favorite individual sports (there are at least 44 million people who fish in the United States alone), it offers insider advice that has stood the test of time. Among the topics covered in wonderful classic black-and-white line illustrations are: fly casting, bait casting, and salt-water fishing; gathering and using live bait; caring for your rods; tying knots and splices; and retrieving lost lures and lines. There's also guidance on when and where to fish; how to fish through the ice; how to mount your own prize catches; how to stock a fish pond; how to cook in camp, and so much more. Plus, there are the many tips that beginner and expert alike will find ingenious: how to make an inflatable life preserver for your tackle box so it won't get lost if it falls out of the boat, or fashion a tangle-proof case for fishing flies from an old piece of garden hose. All the information remains valid for today's fishing hobbyists. Redesigned and repackaged using the terrific original illustrations, this is the perfect gift for every fishing fan.

**Tsarina's Daughter** Ellen Alpsten 2021-07-08 Born into the House of Romanov to the all-powerful Peter the Great and Catherine I, beautiful Tsarevna Elizabeth is the envy of the Russian empire. Insulated by luxury and free from the burden of statecraft with her younger brother in line to take the throne after Tsar Peter, Elizabeth is seemingly born to pursue her passions. However, following a string of untimely deaths, including her father who dies without naming his successor, Elizabeth's idyllic world on the sprawling royal estate is shaken. By her twenties she is penniless and powerless, and under threat from Peter's would-be heirs. Elizabeth must decide whether she is willing to take up her role as Russia's ruler, even if pursuing the throne requires the greatest sacrifice of them all.
