**Empowering Learners With Mobile Open-Access Learning Initiatives** Mills, Michael 2017-01-05 Education has been progressing at a rapid pace ever since educators have been able to harness the power of mobile technology. Open-access learning techniques provide more students with the opportunity to engage in educational opportunities that may have been previously restricted. Empowering Learners With Mobile Open-Access Learning Initiatives is an authoritative reference source that offers an engaging look at how mobile technologies are aiding educators in providing new, innovative ways to enhance student learning experiences. Featuring relevant topics such as switch access technology, digital portfolios, dual enrollment students, and place conscious education, this is a reliable resource for academicians, educators, students, and practitioners that are interested in studying recent mobile education advancements.

*A History of Instructional Technology* Paul Saettler 1967

**The Adjunct Faculty Handbook** Virginia Bianco-Mathis 1996-06-18 Colleges and universities throughout the world are relying increasingly on part-time and adjunct faculty to meet teaching needs. Complete with checklists, sample syllabi, evaluation forms and case studies, this handbook provides administrators and full- and part-time faculty with a much-needed, practical resource for helping adjuncts teach as effectively as possible. Topics covered include: course planning, teaching strategies, cooperative learning, student evaluation and professional development.

**Chasing the Wind** Steve Fossett 2013-02-07 As a world record holder in ballooning, speed sailing, and aviation, Steve Fossett was the pinnacle of extreme sporting achievements. His adventurous spirit continually inspired his fellow competitors and sports aficionados, and attracted the curiosity of the world. In 2005, Fossett made the first solo, non-stop, non-refueled circumnavigation of the world at the helm of what has been described as "a fuel tank with room for one"–the Virgin Atlantic Global Flyer. But what made someone like Steve give up a secure, well-paid job in the financial sector for the romantic, yet increasingly dangerous, world of the adventurer? He achieved the first balloon crossings of Asia, Africa, Europe, and South America; the first ocean crossings of the South Atlantic, South Pacific, and Indian Oceans; and the first solo balloon flight round the world–a milestone in aviation history. And he didn't just take on the air. The most-successful speed sailor in the history of sailing, he also completed premier endurance sports events, including the Iditarod and Ironman Triathlon. In this dynamic autobiography, Steve Fossett shared his inspirational stories and candidly recounted the milestones, challenges, and victories that made up his much-heralded career and paved the path to his numerous world records.

**Helen on 86th St** Nicole Kempskie 2012-03-06 12-year-old New Yorker Vita has her heart set on playing Helen of Troy in the school musical. After all, her mother is a Greek translator, so Vita knows the story better than anyone! But when the pretty Helen McGuire is cast instead, Vita's dreams of stardom -- and of her absent father coming home to see her in the show -- begin to dim. Even though her role has only one line, Vita holds onto her dreams, and soon, it seems that her luck may change. But will her star shine bright enough to guide her father home? This charming and big-hearted musical brings a new twist to a classic tale.

**Essentials for Algebra, Student Textbook** McGraw-Hill Education 2007-06-08

*Abelard to Apple* Richard A. Demillo 2011-08-26 How institutions of higher learning can rescue themselves from irrelevance and marginalization in the age of iTunes U and YouTube EDU. The vast majority of American college students attend two thousand or so private and public institutions that might be described as the Middle—reputable educational institutions, but not considered equal to the elite and entrenched upper echelon of the Ivy League and other prestigious schools. Richard DeMillo has a warning for these colleges and universities in the Middle: If you do not change, you are heading for irrelevance and marginalization. In *Abelard to Apple*, DeMillo argues that these institutions, clinging precariously to a centuries-old model of higher education, are ignoring the social, historical, and economic forces at work in today’s world. In the age of iTunes, open source software, and for-profit online universities, there are new rules for higher education. DeMillo, who has spent years in both academia and in industry, explains how higher education arrived at its current parlous state and offers a road map for the twenty-first century. He describes the evolving model for higher education, from European universities based on a medieval model to American land-grant colleges to Apple’s iTunes U and MIT’s OpenCourseWare. He offers ten rules to help colleges reinvent themselves (including “Don’t romanticize your weaknesses”) and argues for a focus on teaching undergraduates. DeMillo’s message—for colleges and universities, students, alumni, parents, employers, and politicians—is that any college or university can change course if it defines a compelling value proposition (one not based in “institutional envy” of Harvard and Berkeley) and imagines an institution that delivers it.

**National Survey of the Education of Teachers** United States. National Survey of the Education of Teachers 1932

*Orthodox Christianity and Gender (Open Access)* Helena Kupari 2019-10-17 The Orthodox Christian tradition has all too often been sidelined in conversations around contemporary religion. Despite being distinct from Protestantism and Catholicism in both theology and practice, it remains an underused setting for academic inquiry into current lived religious practice. This collection, therefore, seeks to redress this imbalance by investigating modern manifestations of Orthodox Christianity through an explicitly gender-sensitive gaze. By addressing attitudes to gender in this context, it fills major gaps in the literature on both religion and gender. Starting with the traditional teachings and discourses around gender in the Orthodox Church, the book moves on to demonstrate the diversity of responses to those narratives that can be found among Orthodox populations in Europe and North America. Using case studies from several countries, with both large and small Orthodox populations, contributors use an interdisciplinary approach to address how gender and religion interact in contexts such as, iconography, conversion, social activism and ecumenical relations, among others. From Greece and Russia to Finland and the USA, this volume sheds new light on the myriad ways in which gender is manifested, performed, and engaged within contemporary Orthodoxy. Furthermore, it also demonstrates that employing the analytical lens of gender enables new insights into Orthodox Christianity as a lived tradition. It will, therefore, be of great interest to scholars of both Religious Studies and Gender Studies.

**The Very Hungry Caterpillar** Eric Carle 2012-09-26 A beautiful hardback edition of the bestselling story about the very hungry caterpillar by Eric Carle with an audio CD, packaged in a sturdy slipcase. Read by Eric Carle himself with both straight reading and read-along tracks with music. The read-along track has a special sound to indicate when to turn the page.

**Foundations and Trends in Smart Learning** Maiga Chang 2019-03-14 This book focuses on the interplay between pedagogy and technology, and their fusion for the advancement of smart learning environments. It discusses various components of this interplay, including learning and assessment paradigms, social factors and policies, emerging technologies, innovative application of mature technologies, transformation of curriculum and teaching behavior, transformation of administration, best infusion practices, and piloting of new ideas. The book provides an archival forum for researchers, academics, practitioners and industry professionals interested and/or engaged in reforming teaching and learning methods by promoting smart learning environments. It also facilitates discussions and constructive dialogue among various stakeholders on the limitations of existing learning environments, the need for reform, innovative uses of emerging pedagogical approaches and technologies, and sharing and promoting best practices, leading to the evolution, design and implementation of smart learning environments.

**Record of Current Educational Publications** 1925

**Attention, Balance and Coordination** Sally Goddard Blythe 2011-08-24 Attention, Balance and Coordination is the most up-to-date handbook for professionals involved in education and child development, providing a new understanding of the source of specific behavioural problems. Written by a respected author of acclaimed titles in this field Explains why early reflexes are important, their functions in development and their effects on learning, behaviour and beyond - also covers adult neurological dysfunctions anxiety and agoraphobia Builds on an ABC of Attention, Balance and Coordination to create a unique look across specific learning difficulties, linked by common motor skills challenges resulting from neuro-developmental deficiencies Includes the INPP Developmental Screening Questionnaire together with guidance on how to use and interpret it

*Integrating Engineering Education and Humanities for Global Intercultural Perspectives* Zhanna Anikina 2020-05-06 This book presents papers from the International Conference on Integrating Engineering Education and Humanities for Global Intercultural Perspectives (IEEHGIP 2020), held on 25–27 March 2020. The conference brought together researchers and practitioners from various disciplines within engineering and humanities to offer a range of perspectives. Focusing on, but not limited to, Content and Language Integrated Learning (CLIL) in Russian education the book will appeal to a wide academic audience seeking ways to initiate positive changes in education.

**MOOCs and Open Education Around the World** Curtis J. Bonk 2015-06-12 As new digital forms of formal and informal learning proliferate, there is an increasing need to better understand how people in different regions of the world are implementing massive open online courses (MOOCs) and other forms of open educational resources (OERs). Educators, researchers, politicians, and numerous other stakeholders want to grasp what the outcomes of these initiatives are and how they can be improved. Ongoing e-learning developments related to both technology and pedagogy have pushed institutions and organizations to grapple with issues of accreditation, credentialing, quality standards, innovative assessment, and learner motivation and attrition, among other areas of concern. In response, MOOCs and Open Education Around the World explores and illuminates unique implementations of MOOCs and open education across regions and nations. The book also focuses on the various opportunities as well as the dilemmas presented in this rapidly evolving age of technology-enabled learning. What are the different delivery formats, interaction possibilities, assessment schemes, and business models? What are the key controversies or issues that must be discussed and addressed? This edited collection explains MOOCs and open education trends and issues in a variety of contexts, shares key research findings, and provides practical suggestions and recommendations for the near future.

**Doing Business in Uzbekistan** Coopers & Lybrand 1998 Compiled and edited by experts in the field and featuring contributions from leading international

bodies, each volume in this series provides the comprehensive and authoritative economic and business information and key data that makes every book an essential first-stop reference source for international companies, individual entrepreneurs and investors, SMEs, business advisors, marketing directors and export managers. The geographical coverage is wide and titles are regularly revised.

**Unlocking the Gates** Taylor Walsh 2010-12-28 Over the past decade, a small revolution has taken place at some of the world's leading universities, as they have started to provide free access to undergraduate course materials—including syllabi, assignments, and lectures—to anyone with an Internet connection. Yale offers high-quality audio and video recordings of a careful selection of popular lectures, MIT supplies digital materials for nearly all of its courses, Carnegie Mellon boasts a purpose-built interactive learning environment, and some of the most selective universities in India have created a vast body of online content in order to reach more of the country's exploding student population. Although they don't offer online credit or degrees, efforts like these are beginning to open up elite institutions—and may foreshadow significant changes in the way all universities approach teaching and learning. Unlocking the Gates is one of the first books to examine this important development. Drawing on a wide range of sources, including extensive interviews with university leaders, Taylor Walsh traces the evolution of these online courseware projects and considers the impact they may have, both inside elite universities and beyond. As economic constraints and concerns over access demand more efficient and creative teaching models, these early initiatives may lead to more substantial innovations in how education is delivered and consumed—even at the best institutions. Unlocking the Gates tells an important story about this form of online learning—and what it might mean for the future of higher education.

**Widening Participation in Higher Education** T. Hinton-Smith 2012-10-30 This collection offers an authoritative, up-to-date commentary on the challenges facing higher education today across both the UK and internationally. The book charts the impact of global economic trends and recent policy developments for students, academics, providers and changing course provision.

**Speed My Way Up** Kristin Pitanza 2018-09-17 Four fictional explorations of the profound demographic and cultural changes that have come to Staten Island since the completion of the Verrazano-Narrows Bridge.

*Czech Lands, Part 1* Lucie Storchová 2020-09-07 “Companion to Central and East European Humanism: Czech Lands” is the first reference work on humanists and their literary activities in this region which appears in English. In two volumes, it offers biographical and bibliographical data about humanist literary life between ca. 1480 and 1630. Apart from introductory chapters, the first volume includes more than 150 biographical entries dealing with authors whose names begin with letters A-L as well as complete overviews of the most recent research on humanism in Central Europe. The interdisciplinary research team paid special attention to local approaches to classical tradition, to forms of humanistic polylingualism and to participation of Bohemian authors in European scholarly networks. Both volumes are of high relevance for all academics who are interested in humanism and history of early modern literature in Central Europe.

**An Introduction to Infectious Diseases** Barry C. Fox 2015-03-24

**StatHand** Tim Roden 2017

**Basic Concepts and Models for Interpreter and Translator Training** Daniel Gile 1995 This book is based on the author’s many years of experience as a practitioner, teacher and researcher in translation and conference interpreting. It is written for I/T trainers who are in search of a methodological basis for their teaching program. The author deals with essential translation and interpretation phenomena and difficulties encountered by students and professionals alike. The underlying theory is based on insights from psycholinguistics, cognitive psychology and I/T research. The ‘concepts’ and ‘models’ are easy to understand and the chapters include teaching suggestions and examples.Suitable for I/T trainers and practitioners.

**Opening Up Education** Toru Iiyoshi 2008 Experts discuss the potential for open education tools, resources, and knowledge to transform the economics and ecology of education.

**Using the European Portfolio for Student Teachers of Languages** David Newby 2011-01-01 The European Portfolio for Student Teachers of Languages is a tool for reflection and self-assessment of the didactic knowledge and skills necessary to teach languages. It builds on insights from the Common European Framework of Reference and the European Language Portfolio as well as the European Profile for Language Teacher Education. Four years after its initial publication it has been translated into twelve European and Asian languages.To meet widespread demand this ECLM publication provides materials which support its implementation in teacher education. The book entitled Using the European Portflio for Student Teachers of Languages presents examples, discussions and research findings of how the EPOSTL is used in initial teacher education courses, in bi-lateral teacher education programs and in teaching practice. The accompanying folder and flyer feature, amongst other things, guidelines for strategic measures for introducing the EPOSTL in a particular institution.

**Educating with Purpose** Stephen Tierney 2020-07-10 In his second book, Tierney argues that the purpose of education must move to the heart of the educational debate. Purpose will significantly influence what schools and the education system as a whole will do next.

**Higher Education in Russia** Yaroslav Kuzminov 2022-09-13 Higher Education in Russia is a must-read for scholars of higher education and Russian history alike.

**E-learning for Societal Needs** Eugenia Smyrnova-Trybulska 2012

**Big Data Analytics in Healthcare** Anand J. Kulkarni 2019-10-01 This book includes state-of-the-art discussions on various issues and aspects of the implementation, testing, validation, and application of big data in the context of healthcare. The concept of big data is revolutionary, both from a technological and societal well-being standpoint. This book provides a comprehensive reference guide for engineers, scientists, and students studying/involved in the development of big data tools in the areas of healthcare and medicine. It also features a multifaceted and state-of-the-art literature review on healthcare data, its modalities, complexities, and methodologies, along with mathematical formulations. The book is divided into two main sections, the first of which discusses the challenges and opportunities associated with the implementation of big data in the healthcare sector. In turn, the second addresses the mathematical modeling of healthcare problems, as well as current and potential future big data applications and platforms. *Twelve Years a Slave* Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

**Empirical Studies on Economics of Innovation, Public Economics and Management** Mehmet Huseyin Bilgin 2017-03-06 This volume presents selected papers from the 18th Eurasia Business and Economics Society (EBES) Conference, with major emphasis placed on highlighting the latest research developments in the economics of innovation, public economics, and management. The articles in the volume also address more specialized topics such as luxury fashion, weather derivatives, health management, islamic bonds, and life satisfaction, among others. The majority of the articles focus on phenomena observed in the Middle East and North Africa (MENA) region and South Asia, representing a unique contribution to understanding contemporary research challenges from a different perspective. *Swift Game Development* Siddharth Shekar 2018-09-28 Embrace the mobile gaming revolution by creating popular iOS games with Swift 4.2 Key Features Learn to create games for iPhone and iPad with the latest Swift Programming language Understand the fundamental concepts of game development like game physics, camera action, sprites, controls, among others Build Augmented reality games using ARKit for true performance Book Description Swift is the perfect choice for game development. Developers are intrigued by Swift and want to make use of new features to develop their best games yet. Packed with best practices and easy-to-use examples, this book leads you step by step through the development of your first Swift game. The book starts by introducing Swift’s best features - including its new ones for game development. Using SpriteKit, you will learn how to animate sprites and textures. Along the way, you will master physics, animations, and collision effects and how to build the UI aspects of a game. You will then work on creating a 3D game using the SceneKit framework. Further, we will look at how to add monetization and integrate Game Center. With iOS 12, we see the introduction of ARKit 2.0. This new version allows us to integrate shared experiences such as multiplayer augmented reality and persistent AR that is tied to a specific location so that the same information can be replicated on all connected devices. In the next section, we will dive into creating Augmented Reality games using SpriteKit and SceneKit. Then, finally, we will see how to create a Multipeer AR project to connect two devices, and send and receive data back and forth between those devices in real time. By the end of this book, you will be able to create your own iOS games using Swift and publish them on the iOS App Store. What you will learn Deliver powerful graphics, physics, and sound in your game by using SpriteKit and SceneKit Set up a scene using the new capabilities of the scene editor and custom classes Maximize gameplay with little-known tips and strategies for fun, repeatable action Make use of animations, graphics, and particles to polish your game Understand the current mobile monetization landscape Integrate your game with Game Center Develop 2D and 3D Augmented Reality games using Apple’s new ARKit framework Publish your game to the App Store Who this book is for If you wish to create and publish iOS games using Swift, then this book is for you. No prior game development or experience with Apple ecosystem is needed.

**Industrial-arts Magazine** 1923

**Engaging College Men** Gar Kellom 2019-03-18 Engaging College Men is a ground-breaking collection of essays by mentors of college men and high school boys on what works to increase their engagement as citizens and participants in the common good. Sponsored by the Lilly Endowment, Engaging College Men presents a variety of programs at fourteen colleges and universities and select high schools and reports on their widely differing ways of guiding men to vocational discernment and a sense of purpose in life. As enrollments of men in college decline, this book is essential reading for college services administrators, teachers, and counselors who are committed to involving males in academic life and service to the community.

*International Bibliography of History of Education and Children's Literature (2013)* Dorena Caroli 2015

**Enhancing E-learning with Media-rich Content and Interactions** Richard Caladine 2008 Online learning is transcending from the text-rich educational experience of the past to a video- and audio-rich learning transformation. The greater levels of media-rich content and media-rich interaction that are currently prevalent in online leisure experiences will help to increase e-learning's future efficiency and effectiveness. ""Enhancing E-Learning with Media-Rich Content and Interactions"" presents instructional designers, educators, scholars, and researchers with the necessary foundational elements, theoretical underpinnings, and practical guidance to aid in the technology selection and design of effective online learning experiences by integrating media-rich interactions and content.
