Issues in Materials Development Maryam Azarnoosh 2016-03-22 Issues in Materials Development provides readers with theoretical foundations and practical aspects of designing materials for EFL/ESL contexts. It starts with discussing some basic and preliminary principles of materials design followed by scrutinizing critical issues in materials development in an objective and systematic way. This ranges from considering learners' needs, adopting, adapting, selection, and gradation of materials to the specific focus of the book on developing various types of materials for the four language skills, pronunciation, ESP vocabulary, and computer assisted language learning materials. Authenticity of materials to be designed and the inclusion of affective factors to develop motivating materials to engage language learners, in addition to features of materials design at a universal level are other areas to read about. This book finally tries to open new horizons and possible futuristic approaches to improve today's ELT materials.

Higher Education and National Identity Johannes Remy 2000-01-01 This study focuses on the conflicting aims and deeds of the Russian government and the Polish nationally-minded student youth in the situation which emerged after the closure of the universities in Warsaw and Wilno (Vilnius) in 1832. Thousands of Polish students studied in Russian universities, constituting a considerable portion of the student body. They formed conspiracies, student unions and study circles. Their relations with Russian students entailed both enmity and co-operation. The book analyzes the idea of what it meant to be a Polish student in Russia between 1832 and 1863, and reveals secret disagreements between government politicians concerning the Polish question at the universities.

Babel No More Michael Erard 2012-01-10 A "fascinating" (The Economist) dive into the world of linguistics that is "part travelogue, part science lesson, part intellectual investigation...an entertaining, informative survey of some of the most fascinating polyglots of our time" (The New York Times Book Review). In Babel No More, Michael Erard, "a monolingual with benefits," sets out on a quest to meet language superlearners and make sense of their mental powers. On the way he uncovers the secrets of historical figures like the

nineteenth-century Italian cardinal Joseph Mezzofanti, who was said to speak seventy-two languages, as well as those of living language-superlearners such as Alexander Arguelles, a modern-day polyglot who knows dozens of languages and shows Erard the tricks of the trade to give him a dark glimpse into the life of obsessive language acquisition. With his ambitious examination of what language is, where it lives in the brain, and the cultural implications of polyglots' pursuits, Erard explores the upper limits of our ability to learn and use languages and illuminates the intellectual potential in everyone. How do some people escape the curse of Babel—and what might the gods have demanded of them in return?

Plast: Ukrainian Scouting, a Unique Story Orest Subtelny 2016-12-01 In this book, the renowned historian Orest Subtelny, who wrote *Ukraine: A History*, describes to us how, in 1911, a small group of teachers, whose people lived under foreign rule, at the crossroads of empires, took Baden Powell's idea, adapted it to their circumstances and formed a scouting organization for the betterment of Ukrainian youth and to provide hope to the Ukrainian nation. The organization was buffeted by history — repression, war, emigration, dispersment throughout the world — and finally found renewal in a free Ukraine. It was an amazing journey, truly a unique story.

Handbook of Early Language Education Mila Schwartz 2022-03-31 This is the first international and interdisciplinary handbook to offer a comprehensive and an in-depth overview of findings from contemporary research, theory, and practice in early childhood language education in various parts of the world and with different populations. The languages under the scope of this handbook are identified by the contributors as immigrant languages, indigenous, endangered, heritage, regional, minority, majority, and marginalized, as well as foreign and second languages, all of which are discussed in relation to early language education as the key concept of the handbook. In this volume, "early language education" will refer to any kind of setting, both formal and informal (e.g. nursery, kindergarten, early childhood education centers, complementary early schooling etc.) in which language learning within a context of children's sociolinguistic diversity takes place before elementary school.

Andrews 1999 This book is a sociolinguistic examination of the Russian speech of the American "Third Wave," the migration from the Soviet Union which began in the early 1970s under the policy of detente. Within the framework of bilingualism and language contact studies, it examines developments in emigre Russian with reference to the late Cold-War period which shaped them and the post-Soviet era of today. The book addresses matters of interest not only to Russianists, but to linguists of various theoretical persuasions and to sociologists, anthropologists and cultural historians working on a range of related topics. No knowledge of the Russian language is assumed on the part of the reader, and all linguistics examples are presented in standard transliteration and fully explicated.

Stanislavsky in Practice Vreneli Farber 2008 Stanislavsky in Practice focuses on the course of study

pursued today by aspiring actors in Russia and on the philosophy that informs this curriculum. It draws on extensive observation during the academic year 2000-2001 of the actor training program of the St. Petersburg State Academy of Theatre Arts (SPGATI), one of the three most prestigious theatrical institutes in Russia, and on interviews of a wide array of individuals in the Academy. Although the years since 1991 have witnessed many changes in theater and in actor training - sources of funding, administration, choice of repertoire, new methodologies, etc. - there remains much continuity with the past. The core of this continuity is the Stanislavsky tradition, which nevertheless has been affected by the views of post-Soviet Russia. The developments in actor training from 1991 to 2001 reflect the challenges and problems faced by other institutions in the arts and sciences. In other words, the phenomenon of continuity and discontinuity with the past is characteristic of other institutions in Russia, cultural as well as scientific and educational.

Becoming Muslim in Imperial Russia Agnès Nilüfer Kefeli 2014-12-18 In the nineteenth century, the Russian Empire's Middle Volga region (today's Tatarstan) was the site of a prolonged struggle between Russian Orthodoxy and Islam, each of which sought to solidify its influence among the frontier's mix of Turkic, Finno-Ugric, and Slavic peoples. The immediate catalyst of the events that Agnès Nilüfer Kefeli chronicles in *Becoming Muslim in Imperial Russia* was the collective turn to Islam by many of the region's Kräshens, the Muslim and animist Tatars who converted to Russian Orthodoxy between the sixteenth and eighteenth centuries. The traditional view holds that the apostates had really been Muslim all along or that their conversions had been forced by the state or undertaken voluntarily as a matter of convenience. In Kefeli's view, this argument vastly oversimplifies the complexity of a region where many participated in the religious cultures of both Islam and Orthodox Christianity and where a vibrant Kräshen community has survived to the present. By analyzing Russian, Eurasian, and Central Asian ethnographic, administrative, literary, and missionary sources, Kefeli shows how traditional education, with Sufi mystical components, helped to Islamize Finno-Ugric and Turkic peoples in the Kama-Volga countryside and set the stage for the development of modernist Islam in Russia. Of particular interest is Kefeli's emphasis on the role that Tatar women (both Kräshen and Muslim) played as holders and transmitters of Sufi knowledge. Today, she notes, intellectuals and mullahs in Tatarstan seek to revive both Sufi and modernist traditions to counteract new expressions of Islam and promote a purely Tatar Islam aware of its specificity in a post-Christian and secular environment.

Twelve Years a Slave Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Life Histories of Ethnos Theory in Russia and Beyond David G. Anderson 2019-02-25 The idea of ethnos came into being over a hundred years ago as a way of understanding the collective identities of people with a common language and shared traditions. In the twentieth century, the concept came to be associated with Soviet state-building, and it fell sharply out of favour. Yet outside the academy, ethnos-style arguments not only persist, but are a vibrant part of regional anthropological traditions. *Life Histories of Ethnos Theory in Russia and Beyond* makes a powerful argument for reconsidering the importance of ethnos in our understanding of ethnicity and national identity across Eurasia. The collection brings to life a rich archive of previously unpublished letters, fieldnotes, and photographic collections of the theory's early proponents. Using contemporary fieldwork and case studies, the volume shows how the ideas of these ethnographers continue to impact and shape identities in various regional theatres from Ukraine to the Russian North to the Manchurian steppes of what is now China. Through writing a life history of these collectivist concepts, the contributors to this volume unveil a world where the assumptions of liberal individualism do not hold. In doing so, they demonstrate how notions of belonging are not fleeting but persistent, multi-generational, and bio-social. This collection is essential reading for anyone interested in Russian and Chinese area studies. It

will also appeal to historians and students of anthropology and ethnography more generally.
