*Russian Social Media Influence* Todd C. Helmus 2018-04-12 Russia employs a sophisticated social media campaign against former Soviet states that includes news tweets, nonattributed comments on web pages, troll and bot social media accounts, and fake hashtag and Twitter campaigns. Nowhere is this threat more tangible than in Ukraine. Researchers analyzed social media data and conducted interviews with regional and security

experts to understand the critical  
ingredients to countering this

campaign.
