Seduced by Secrets Kristie Macrakis 2008-03-17 More fascinating than fiction, *Seduced by Secrets* takes the reader inside the real world of one of the most effective and feared spy agencies in history. The book reveals, for the first time, the secret technical methods and sources of the Stasi (East German Ministry for State Security) as it stole secrets from abroad and developed gadgets at home, employing universal, highly guarded techniques often used by other spy and security agencies. *Seduced by Secrets* draws on secret files from the Stasi archives, including CIA-acquired material, interviews and friendships, court documents, and unusual visits to spy sites, including "breaking into" a prison, to demonstrate that the Stasi overestimated the power of secrets to solve problems and created an insular spy culture more intent on securing its power than protecting national security. It recreates the Stasi's secret world of technology through biographies of agents, defectors, and officers and by visualizing James Bond-like techniques and gadgets. In this highly original book, Kristie Macrakis adds a new dimension to our understanding of the East German Ministry for State

Security by bringing the topic into the realm of espionage history and exiting the political domain.

The Boss of Taroomba Ernest William Hornung 1894 Ernest William Hornung (professionally known as E. W. Hornung; 1866-1921), was an English poet and writer. From a Hungarian background, Hornung was educated at Uppingham School; as a result of poor health he left the school in December 1883 to travel to Sydney, where he stayed for two years. He returned in early 1886 when his father was dying and bankrupt, and began writing professionally shortly afterwards. Hornung had his first work published in 1887-the short story "Stroke of Five" in *Belgravia* magazine. His first novel, *A Bride from the Bush*, was published in 1890, and Hornung used his Australian experiences as a backdrop to the story. He went on to use Australia as a setting or plot element in a further seven

novels and two collections of short stories.

Improving Learning Transfer Cyril Kirwan 2009 Cyril Kirwan's book addresses this critical issue at a number of levels. Firstly, it explores what learning transfer actually is (it's about application of learning back at work, as well as maintenance of that learning over time). Secondly, it describes the main factors that affect transfer, in terms of trainee characteristics, training design factors, and work environment characteristics. It also examines how those factors exert their effect, which ones are more important, how they interact with one another, and in doing so constructs a practical learning transfer model for practitioners. The book also describes in some detail what the various factors working for or against learning transfer look like in practice. Finally, using case studies, it points the way towards what can be done before, during and after training to improve the rate of transfer.

The History of Rome. Book I Theodor Mommsen 2015-06-27 The history of Italy falls into two main sections: (1) its internal history down to its union under the leadership of the Latin stock, and (2) the history of its sovereignty over the world. Under the first section, which will occupy the first two books, we shall have to set forth the settlement of the Italian stock in the peninsula; the imperilling of its national and political

existence, and its partial subjugation, by nations of other descent and older civilization, Greeks and Etruscans; the revolt of the Italians against the strangers, and the annihilation or subjection of the latter; finally, the struggles between the two chief Italian stocks, the Latins and the Samnites, for the hegemony of the peninsula, and the victory of the Latins at the end of the fourth century before the birth of Christ-or of the fifth century of the city. The second section opens with the Punic wars; it embraces the rapid extension of the dominion of Rome up to and beyond the natural boundaries of Italy, the long status quo of the imperial period, and the collapse of the mighty empire.
