The Women's Liberation Movement in Russia
Richard Stites 1978-02-21 "This book offers a brilliant treatment of many facets of its subject, but it also ends up being, for the reader, one of the finest general histories to be found, of these crucial years in Russian history. The source material is unbelievably detailed, and clearly cited on each page. Not only that, the writing is, at many points, the boldest, clearest I've almost ever found in the Academy. The author's opinions, summaries, insights easily spill out of the historical constructions. The presence of the author's psyche (he never hides behind his quotes) means the material is contoured. The reader gets, not only huge amounts of information, but an authorial presence, as company, that is often daring, bold, insightful, revelatory. And one stylistic point made me especially happy: when Stites uses metaphors to explain history, these are revelatory, and their internal implications are followed through in the prose." -- from www.goodreads.com (Feb. 2, 2011.)

Transitions Environments Translations Joan W. Scott 2013-10-18 The essays in Transitions, Environments, Translations explore the varied meanings of feminism in different political, cultural, and historical contexts. They respond to the claim that feminism is Western in origin and universalist in theory, and to the assumption that feminist goals are self-evident and the same in all contexts. Rather than assume that there is a blueprint by which to measure the strength or success of feminism in different parts of the world, these essays consider feminism to be a site of local, national and international conflict. They ask: What is at stake in various political efforts by women in different parts of the world? What meanings have women given to their efforts? What has been their relationship to feminism--as a concept and as an international movement? What happens when feminist ideas are translated from one language, one political context, to another?

The KGB's Poison Factory Boris Volodarsky 2013-11-30 In late November 2006 the world was shaken by the ruthless assassination in London of Alexander Litvinenko, a former Lt Col of the Russian security service (FSB). The murder was the most notorious crime committed by the Russian intelligence on foreign soil in over three decades. The author, Boris Volodarsky, who was consulted by the Metropolitan Police during the investigation and remains in close contact with Litvinenko’s widow, is a former Russian military intelligence officer and an international expert in special operations. His narrative reveals that since 1917 — beginning with Lenin and his Cheka — the Russian security services have regularly carried out bespoke poisoning operations all over the world to eliminate the enemies of the Kremlin. The author proves that the Litvinenko’s poisoning is just one episode in the chain of murders that continues until the present day. Some of these assassinations or attempted assassinations are already known, others are revealed here for the first time. Uniquely Volodarsky has had a personal involvement in almost every each of the 20 cases, from the radioactive thallium poisoning of the Soviet defector Nikolai Khokhlov in Frankfurt in September 1957 to the ricin —umbrella murder— of the Bulgarian dissident Georgi Markov in London in 1978. "Here, for the fan of murder thrillers and modern history alike, is a cracking good read. In brilliant light we see what lay for nearly a century behind the London polonium poisoning of British citizen Alexander Litvinenko, former Russian. It was just one recent hit by the world’s most prolific serial killer -- the Russian state. With original research guided by his insider's eye and scholarly care, Boris Volodarsky recounts scores of murders. Assassination emerges as state policy, as institutionalized bureacracy, as day-to-day routine, as laboratory science, as a branch of medicine researching ways not to stave off death but to deliver it in apparently innocent or accidental forms, and as engineering technology, devising ever-new devices to meet each new requirement, from umbrella tips and cigarette cases and rolled-up newspapers -- to Litvinenko's teacup." Tennent H. Bagley, former CIA chief of Soviet Bloc counterintelligence.

The Right to Be Helped Maria Galmarini 2016-08-15 "Doesn't an educated person—simple and working, sick and with a sick child—doesn't she have the right to enjoy at least the crumbs at the table of the revolutionary feast?" Disabled single mother Maria Zolotova-Sologub raised this question in a petition dated July 1929 demanding medical assistance and a monthly subsidy for herself and her daughter. While the welfare of able-bodied and industrially productive people in the first socialist country in the world was protected by a state-funded insurance system, the social rights of labor-incapacitated and unemployed individuals such as Zolotova-Sologub were difficult to define and legitimize. The Right to Be Helped illuminates the ways in which marginalized members of Soviet society understood their social rights and articulated their moral expectations regarding the socialist state between 1917 and 1950. Maria Galmarini-Kabala shows how definitions of state assistance and who was entitled to it provided a platform for policymakers and professionals to engage in heated debates about disability, gender, suffering, and productive and reproductive labor. She explores how authorities and experts reacted to requests for support, arguing that responses were sometimes characterized by an enlightened nature and other times by coercive discipline, but most frequently by a combination of the two. By focusing on the experiences of behaviorally problematic children, unemployed single mothers, and blind and deaf adults in several major urban centers, this important study shows that the dialogue over the right to be helped was central to defining the moral order of Soviet socialism. It will appeal to scholars and students of Russian history, as well as those interested in comparative

Porsche needs to develop their social media to the next level for appealing to a new generation with different expectations. Forecasts have predicted a fourfold growth by 2050 in the car industry. With the development of Porsche's digital marketing strategy, in addition to supporting the achievement of the company's overall goal, the target audience will be attracted. With multichannel marketing and channel integration, leverage effects can be created, and the defined marketing objective can be achieved. Special attention is given to social media in this paper, with specific strategies for Instagram and YouTube. On these two platforms, Porsche’s target audience overlaps with the user groups.

Dramatic Interactions Nicoletta Marini-Maio 2011-01-18 Dramatic Interactions is a collection of essays on the flourishing and interdisciplinary subject of teaching foreign languages, literatures, and cultures through theater. With rich examples from a variety of commonly and less commonly taught languages, this book affirms both the relevance and effectiveness of using theater for foreign language learning in the most comprehensive sense of the term. It includes innovative approaches to specific theatrical texts and addresses numerous aspects of foreign language learning such as oral proficiency and communication, intercultural competence, the role of affect and motivation in foreign language study, multiple literacies, regional variations and dialect, literary analysis and adaptation, and the overall liberating effects of verbal and non-verbal self-expression in the foreign language. Dramatic Interactions renders accessible, efficacious, and enjoyable the study of languages, literatures, and cultures through theater with the hope of inspiring and facilitating the greater incorporation of theatrical texts and techniques in foreign language courses at every level.

Mothers and Daughters Barbara Alpern Engel 2000-02 The first psychosocial study of the female intelligentsia in Russia, Mothers and Daughters explains how and why women radicals of the nineteenth century diverged from their male counterparts, describes the forces that led women to rebel, and discusses their mixed legacy to future generations. Barbara Alpern Engel examines her subject on three levels: the traditional family system; early feminism and women's rebellion against the family; and the causes and consequences of women's revolutionary activity. She describes the impact this revolt had on the family and the lives of radical women and the movement's role in inspiring a new feminine mythology. Throughout, Engel brings nineteenth-century women to life, humanizing history as she presents a case study of how the personal became political in a time and place very different from our own.

Russian Social Media Influence Todd C. Helmus 2018-04-12 Russia employs a sophisticated social media campaign against former Soviet states that includes news tweets, nonattributed comments on web pages, troll and bot social media accounts, and fake hashtag and Twitter campaigns. Nowhere is this threat more tangible than in Ukraine. Researchers analyzed social media data and conducted interviews with regional and security experts to understand the critical ingredients to countering this campaign.

A Biographical Dictionary of Women's Movements and Feminisms Francisca de Haan 2006-01-10 This Biographical Dictionary describes the lives, works and aspirations of more than 150 women and men who were active in, or part of, women’s movements and feminisms in Central, Eastern and South Eastern Europe. Thus, it challenges the widely held belief that there was no historical feminism in this part of Europe. These innovative and often moving biographical portraits not only show that feminists existed here, but also that they were widespread and diverse, and included Romanian princesses, Serbian philosophers and peasants, Latvian and Slovakian novelists, Albanian teachers, Hungarian Christian social workers and activists of the Catholic women’s movement, Austrian factory workers, Bulgarian feminist scientists and socialist feminists, Russian radicals, philanthropists, militant suffragists and Bolshevik activists, prominent writers and philosophers of the Ottoman era, as well as Turkish republican leftist political activists and nationalists, internationally recognized Greek feminist leaders, Estonian pharmacologists and science historians, Slovenian ‘literary feminists,’ Czech avant-garde painters, Ukrainian feminist scholars, Polish and Czech Senate Members, and many more. Their stories together constitute a rich tapestry of feminist activity and redress a serious imbalance in the historiography of women’s movements and feminisms.

The Jews in Poland and Russia Antony Polonsky 2010-06-17 In his three-volume history, Antony Polonsky provides a comprehensive survey—socio-political, economic, and religious—of the Jewish communities of eastern Europe from 1350 to the present. Until the Second World War, this was the heartland of the Jewish world: nearly three and a half million Jews lived in Poland alone, while nearly three million more lived in the Soviet Union. Although the majority of the Jews of Europe and the United States, and many of the Jews of Israel, originate

from these lands, their history there is not well known. Rather, it is the subject of mythologizing and stereotypes that fail both to bring out the specific features of the Jewish civilization which emerged there and to illustrate what was lost. Jewish life, though often poor materially, was marked by a high degree of spiritual and ideological intensity and creativity. Antony Polonsky recreates this lost world—brutally cut down by the Holocaust and less brutally but still seriously damaged by the Soviet attempt to destroy Jewish culture. Wherever possible, the unfolding of history is illustrated by contemporary Jewish writings to show how Jews felt and reacted to the complex and difficult situations in which they found themselves. This second volume covers the period from 1881 to 1914. It considers the deterioration of the position of the Jews during that period and the new political and cultural movements that developed as a consequence: Zionism, socialism, autonomism, the emergence of modern Hebrew and Yiddish literature, Jewish urbanization, and the rise of popular Jewish culture. Galicia, Prussian Poland, the Kingdom of Poland, and the Tsarist Empire are all treated individually, as are the main towns of these areas. Volume 1 covers the period 1350–1881; Volume 3 covers 1914–2008.

History as Performance Dietlind Hüchtker 2020-09-07 This study analyzes history as performance: as the interaction of actors, plays, stages and enactments. By this, it examines women’s politics in Habsburg Galicia around 1900: a Polish woman active in the peasant movement, a Ukrainian feminist, and a Jewish Zionist. It shows how the movements constructed essentialistically regarded collectives, experience as a medially comprehensible form of credibility, and a historically based inevitability of change, and legitimized participation and intervention through social policy and educational practices. Traits shared by the movements included the claim to interpretive sovereignty, the ritualization of participation, and the establishment of truths about past and future.

Equality and Revolution Rochelle Goldberg Ruthchild 2010 On July 20, 1917, Russia became the world's first major power to grant women the right to vote and hold public office. Yet in the wake of the October Revolution later that year, the foundational organizations and individuals who pioneered the suffragist cause were all but erased from Russian history. The women's movement, when mentioned at all, is portrayed as meaningless to proletariat and peasant women, based in elitist and bourgeoisie culture of the tsarist era, and counter to socialist ideology. In this groundbreaking book, Rochelle Goldberg Ruthchild reveals that Russian feminists in fact appealed to all classes and were an integral force for revolution and social change, particularly during the monumental uprisings of 1905-1917. Ruthchild offers a telling examination of the dynamics present in imperialist Russia that fostered a growing feminist movement. Based upon extensive archival

research in six countries, she analyzes the backgrounds, motivations, methods, activism, and organizational networks of early Russian feminists, revealing the foundations of a powerful feminist intelligentsia that came to challenge, and eventually bring down, the patriarchal tsarist regime. Ruthchild profiles the individual women (and a few men) who were vital to the feminist struggle, as well as the major conferences, publications, and organizations that promoted the cause. She documents political party debates on the acceptance of women's suffrage and rights, and follows each party's attempt to woo feminist constituencies despite their fear of women gaining too much political power. Ruthchild also compares and contrasts the Russian movement to those in Britain, China, Germany, France, and the United States. Equality and Revolution offers an original and revisionist study of the struggle for women's political rights in late imperial Russia, and presents a significant reinterpretation of a decisive period of Russian--and world--history.
