Ninth Street Women Mary Gabriel 2018-09-25 Five women revolutionize the modern art world in postwar America in this "gratifying, generous, and lush" true story from a National Book Award and Pulitzer Prize finalist (Jennifer Szalai, New York Times). Set amid the most turbulent social and political period of modern times, *Ninth Street Women* is the impassioned, wild, sometimes tragic, always exhilarating chronicle of five women who dared to enter the male-dominated world of twentieth-century abstract painting -- not as muses but as artists. From their cold-water lofts, where they worked, drank, fought, and loved, these pioneers burst open the door to the art world for themselves and countless others to come. Gutsy and indomitable, Lee Krasner was a hell-raising leader among artists long before she became part of the modern art world's first celebrity couple by marrying Jackson Pollock. Elaine de Kooning, whose brilliant mind and peerless charm made her the emotional center of the New York School, used her work and words to build a bridge between the avant-garde and a public that scorned abstract art as a hoax. Grace Hartigan fearlessly abandoned life as a New Jersey housewife and mother to achieve stardom as one of the boldest painters of her generation. Joan Mitchell, whose notoriously tough exterior shielded a vulnerable artist within, escaped a privileged but emotionally damaging Chicago childhood to translate her fierce vision into magnificent canvases. And Helen Frankenthaler, the beautiful daughter of a prominent New York family, chose the difficult path of the creative life. Her gamble paid off: At twenty-three she created a work so original it launched a new school of painting. These women changed American art and society, tearing up the prevailing social code and replacing it with a doctrine of liberation. In *Ninth Street Women*, acclaimed author Mary Gabriel tells a remarkable and inspiring story of the power of art and artists in shaping not just postwar America but the future.

Boundaries Henry Cloud 2008-09-09 Having clear boundaries is essential to a healthy, balanced lifestyle. A boundary is a personal property line that marks those things for which we are responsible. In other words, boundaries define who we are and who we are not. Boundaries impact all areas of our lives: Physical boundaries help us determine who may touch us and under what circumstances -- Mental boundaries give us the freedom to have our own thoughts and opinions -- Emotional boundaries help us to deal with our own emotions and disengage from the harmful, manipulative emotions of others -- Spiritual boundaries help us to distinguish God's will from our own and give us renewed awe for our Creator -- Often, Christians focus so much on being loving and unselfish that they forget their own limits and limitations. When confronted with their lack of boundaries, they ask: - Can I set limits and still be a loving person? - What are legitimate boundaries? - What if someone is upset or hurt by my boundaries? - How do I answer someone who wants my time, love, energy, or money? - Aren't boundaries selfish? - Why do I feel guilty or afraid when I consider setting boundaries? Dr. Henry Cloud and Dr.

John Townsend offer biblically-based answers to these and other tough questions, showing us how to set healthy boundaries with our parents, spouses, children, friends, co-workers, and even ourselves.

Content Marketing Rebecca Lieb 2011-10-01 Anyone with any kind of digital presence is a publisher. That includes web sites, but also businesses that blog, are present on social media sites such as Facebook, YouTube or Twitter, and even companies that publish and disseminate content digitally, such as white papers, e-books, podcasts, etc. The reason for this shift is clear: it's easier and cheaper than ever to have a digital presence - and to use your digital profile to market to your customers and prospects. Doing so reduces, and in some cases, eliminates, the need for advertising. Why buy media when you ARE the media? But as we all know, with great power comes great responsibility. What kind of content should you publish? In what forms, and on what platforms? How do you ensure that you'll keep having things to say, and how will you say them effectively, in a consistent "voice" unique to your organization? How will you know if your content strategy is working?

Self-Management, Entrepreneurial Culture, and Economy 4.0 Agnieszka Rzepka 2021-11-02 This book offers practical insight into the changing ways in which organizations operate today. Building on a groundbreaking concept of teal organizations, the book illustrates the practicality of advocating a lack of hierarchy of predetermined positions and the introduction of roles that come with clear responsibilities constantly defined according to current needs. First described by Frederic Laloux, a teal organization is a ground-breaking approach to managing organizations that is being adopted around the world, which turns everyone into a leader. This new paradigm rests on the ideas of wholeness, evolutionary purpose, employee autonomy, and self-management based on peer relationships. Its main assumption is the empowerment of the employee resulting in a change in

workplace relationships and a more soulful and purposeful work environment. Drawing on the authors' research across six different countries, it presents the evolution of self-management and entrepreneurial culture in the current age of Economy 4.0 and examines how the teal concept has been implemented around the world. It examines misconceptions surrounding this novel approach and diagnoses the practical problems connected with implementing it in the current uncertain times. It will be of value to researchers, academics, managers, and students in the fields of management and organizational studies.
