Philosophy of Chance Michael Heller 2018-09-30 In this book - which is written by the 2008 Templeton Prize laureate Michael Heller - the problems of chance and probability are seen in light of the advancements of physics and biology. Heller's claim is that chance finds its place within the structure of the universe and cosmic evolution. His insightful remarks may be considered a critique of both Dawkins' 'blind watchmaker' approach and Dembski's 'intelligent design' perspective. Heller is a cosmologist, a philosopher, the director of the Copernicus Center for Interdisciplinary Studies in Krakow, a professor at the John Paul II University in Krakow, and an adjunct member of the Vatican Observatory.

The History of Africa Molefi Kete Asante 2014-10-10 There is a paradox about Africa: it remains a subject that attracts considerable attention yet rarely is there a full appreciation of its complexity. African historiography has typically consisted of writing Africa for Europe—instead of writing Africa for itself, as itself, from its own perspectives. The History of Africa redresses this by letting the perspectives of Africans themselves take center stage. Authoritative and comprehensive, this book provides a wide-ranging history of Africa from earliest prehistory to the present day—using the cultural, social, political, and economic lenses of Africa as instruments to illuminate the ordinary lives of Africans. The result is a fresh survey that includes a wealth of indigenous ideas, African concepts, and traditional outlooks that have escaped the writing of African history in the West. The new edition includes information on the Arab Spring, the rise of FrancAfrica, the presence of the Chinese in Africa, and the birth of South Sudan. The chapters go up to the present day, addressing US President Barack Obama's policies toward Africa. A new companion website provides students and scholars of Africa with access to a wealth of supporting resources for each chapter, including images, video and audio clips, and links to sites for further research. This straightforward, illustrated, and factual text allows the reader to access the major developments, personalities, and events on the African continent. This groundbreaking survey is an indispensable guide to African history.

Across the River and Into the Trees Ernest Hemingway 2002-07-25 In the fall of 1948, Ernest Hemingway made his first extended visit to Italy in thirty years. His reacquaintance with Venice, a city he loved, provided the inspiration for *Across the River and into the Trees*, the story of Richard Cantwell, a war-ravaged American colonel stationed in Italy at the close of the Second World War, and his love for a young Italian countess. A poignant, bittersweet homage to love that overpowers reason, to the resilience of the human spirit, and to the worldweary beauty and majesty of Venice, *Across the River and into the Trees* stands as Hemingway's statement of defiance in response to the great dehumanizing atrocities of the Second World War. Hemingway's last full-length novel published in his lifetime, it moved John O'Hara in *The New York Times* Book Review to call him "the most important author since Shakespeare."

Twelve Years a Slave Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

How to Tame a Human Tornado Paul Tobin 2018-09-06 Friday the thirteenth was totally normal. By 'normal', I mean that my good-for-nothing brother was absolutely not turned into a zebra while I was being suffocated by a million frogs. There were no levitation pills, time-freezing guns or robot octopuses, and I certainly didn't turn my classmate into a human tornado that destroyed most of the town. That would be preposterous. No, it was just another 'normal' day with my best friend Nate - who just happens to be a genius.

All Around Bustletown: Spring Rotraut Susanne Berner 2019-11-12 Kids will spend hours poring over the oversized pages of this joyfully illustrated book that looks at a bustling town's activities in spring. It's springtime in this charming, busy town and there is a lot going on! A house gets a top-to-bottom spring cleaning and farm fields are being prepared for planting. People are shopping, commuting to work, constructing buildings, and meeting friends. If you look closer, you'll recognize the same characters appear on every page, each with their own story. There's Wilfred the jogger slipping on a banana peel and his friend Erica who comes to help him. Three cheerful nuns shop, chat, and share a snack at the cafe.
