*Mothers and Daughters* Barbara Alpern Engel

2000-02 The first psychosocial study of the female intelligentsia in Russia, *Mothers and Daughters* explains how and why women radicals of the nineteenth century diverged from their male counterparts, describes the forces that led women to rebel, and discusses their mixed legacy to future generations. Barbara Alpern Engel

examines her subject on three levels: the traditional family system; early feminism and women's rebellion against the family; and the causes and consequences of women's revolutionary activity. She describes the impact this revolt had on the family and the lives of radical women and the movement's role in inspiring a new feminine mythology. Throughout, Engel brings nineteenth-century women to life, humanizing history as she presents a case study of how the personal became political in a time and place very different from our own.

*Culture of the Future* Lynn Mally 1990-01-01

"Mally's book moves the study of an important revolutionary cultural experiment from the realm of selective textual analysis to wide-ranging social and institutional history. It reveals vividly the social-cultural tensions and values inherent in the Russian revolutionary period, and adds authoritatively to the rapidly emerging literature on cultural revolution in Russia and in the modern world at large."--Richard Stites, Georgetown University

*Essence and Alchemy* Mandy Aftel 2014-11-17

As long as there has been passion, there has

been perfume. Wealthy Romans used to scent their doves while in Shakespeare's time, a woman in love would place a peeled apple into her armpit to saturate it with her scent and then present it to her lover. *Essence And Alchemy* resurrects the social and metaphysical legacy that is entwined with the evolution of perfumery, from the dramas of the spice trade to the quests of the alchemists. Aftel tracks scent through the boudoir and the bath and into the sanctums of worship, and along the way teaches us the art of perfume-making, including many of her own recipes, offering insights on the relationship of scent to

solitude, sex, and soul.

**Russian Social Media Influence** Todd C. Helmus  
2018-04-12 Russia employs a sophisticated social media campaign against former Soviet states that includes news tweets, nonattributed comments on web pages, troll and bot social media accounts, and fake hashtag and Twitter campaigns.

Nowhere is this threat more tangible than in Ukraine. Researchers analyzed social media data and conducted interviews with regional and security experts to understand the critical ingredients to countering this campaign.

Captive University John Connelly 2014-12-01 This comparative history of the higher education systems in Poland, East Germany, and the Czech lands reveals an unexpected diversity within East European stalinism. With information gleaned from archives in each of these places, John Connelly offers a valuable case study showing how totalitarian states adapt their policies to the contours of the societies they rule. The Communist dictum that universities be purged of "bourgeois elements" was accomplished most fully in East Germany, where more and more

students came from worker and peasant backgrounds. But the Polish Party kept potentially disloyal professors on the job in the futile hope that they would train a new intelligentsia, and Czech stalinists failed to make worker and peasant students a majority at Czech universities. Connelly accounts for these differences by exploring the prestalinist heritage of these countries, and particularly their experiences in World War II. The failure of Polish and Czech leaders to transform their universities became particularly evident during the crises of 1968 and 1989, when university students spearheaded

reform movements. In East Germany, by contrast, universities remained true to the state to the end, and students were notably absent from the revolution of 1989.

**Gender, Class, and the Professionalization of Russian City Teachers, 1860–1914** Christine Ruane 1994-11-15 Christine Ruane examines the issues of gender and class in the teaching profession of late imperial Russia, at a time when the vocation was becoming increasingly feminized in a zealously patriarchal society. Teaching was the first profession open to women in the 1870s, and by the end of the century almost half of all

Russian teachers were female. Yet the notion that mothers had a natural affinity for teaching was paradoxically matched by formal and informal bans against married women in the classroom.

Ruane reveals not only the patriarchal rationale but also how women teachers viewed their public roles and worked to reverse the marriage ban.

Ruane's research and insightful analysis broadens our knowledge of an emerging professional class, especially newly educated and emancipated women, during Russia's transition to a more modern society.

**Polin: Studies in Polish Jewry Volume 18**

2005-11-29 Jewish women's exclusion from the public domains of religious and civil life has been reflected in their near absence in the master narratives of the East European Jewish past. As a result, the study of Jewish women in eastern Europe is still in its infancy. The fundamental task of historians to construct women as historical subjects, 'as a focus of inquiry, a subject of the story, an agent of the narrative', has only recently begun. This volume is the first collection of

essays devoted to the study of Jewish women's experiences in Eastern Europe. The volume is edited by Paula Hyman of Yale University, a leading figure in Jewish women's history in the United States, and by ChaeRan Freeze of Brandeis University, author of a prize-winning study on Jewish divorce in nineteenth-century Russia. Their Introduction provides a much-needed historiographic survey that summarizes the major work in the field and highlights the lacunae. Their contributors, following this lead, have attempted to go beyond mere description of what women experienced to explore how gender

constructed distinct experiences, identities, and meanings. In seeking to recover lost achievements and voices and place them into a broader analytical framework, this volume is an important first step in the rethinking of east European Jewish history with the aid of new insights gleaned from the research on gender. As in earlier volumes of Polin, substantial space is given, in 'New Views', to recent research in other areas of Polish-Jewish studies, and there is a book review section.

**The Development of Russian Evangelical Spirituality** Gregory L. Nichols 2011-11-09 Today, many evangelicals in the Russian-speaking world emphasize sanctification as a distinctive mark of their Christian faith. This is a unique characteristic, particularly in the European context. Their historic tapestry has been woven from a number of threads that originated in the second half of the nineteenth century. Missionary efforts of the German Baptists, a revival sparked by a British evangelist, and a pietistic awakening among the Mennonites in the South converged to form a tapestry that displays Protestant, Baptist,

and Anabaptist heritage. Ivan Kargel uniquely participated in the formation and ministry of each of these threads. His life spans from Tsarist Russia to the Soviet Union. Kargel refused to adhere to a systematic view of theology. Instead, he urged believers to go to Scripture and draw from the riches of a life united with Christ. Kargel's influence today is keenly felt across the Russian-speaking evangelical world as they seek to identify the roots of their spiritual identity. This book examines the influences on Ivan Kargel and offers insights into how his life and work are expressed in the tapestry of Russian evangelical

spirituality.

*Equality and Revolution* Rochelle Goldberg

Ruthchild 2010 On July 20, 1917, Russia became

the world's first major power to grant women the right to vote and hold public office. Yet in the wake of the October Revolution later that year, the foundational organizations and individuals who pioneered the suffragist cause were all but erased from Russian history. The women's movement, when mentioned at all, is portrayed as meaningless to proletariat and peasant women, based in elitist and bourgeoisie culture of the tsarist era, and counter to socialist ideology. In this groundbreaking book, Rochelle Goldberg Ruthchild reveals that Russian feminists in fact appealed to all classes and were an integral force

for revolution and social change, particularly during the monumental uprisings of 1905-1917. Ruthchild offers a telling examination of the dynamics present in imperialist Russia that fostered a growing feminist movement. Based upon extensive archival research in six countries, she analyzes the backgrounds, motivations, methods, activism, and organizational networks of early Russian feminists, revealing the foundations of a powerful feminist intelligentsia that came to challenge, and eventually bring down, the patriarchal tsarist regime. Ruthchild profiles the individual women (and a few men) who were vital

to the feminist struggle, as well as the major conferences, publications, and organizations that promoted the cause. She documents political party debates on the acceptance of women's suffrage and rights, and follows each party's attempt to woo feminist constituencies despite their fear of women gaining too much political power. Ruthchild also compares and contrasts the Russian movement to those in Britain, China, Germany, France, and the United States. *Equality and Revolution* offers an original and revisionist study of the struggle for women's political rights in late imperial Russia, and presents a significant

reinterpretation of a decisive period of Russian--and world--history.

**The Right to Be Helped** Maria Galmarini

2016-08-05 "Doesn't an educated person—simple and working, sick and with a sick child—doesn't she have the right to enjoy at least the crumbs at

the table of the revolutionary feast?" Disabled single mother Maria Zolotova-Sologub raised this question in a petition dated July 1929 demanding medical assistance and a monthly subsidy for herself and her daughter. While the welfare of able-bodied and industrially productive people in the first socialist country in the world was protected by a state-funded insurance system, the social rights of labor-incapacitated and unemployed individuals such as Zolotova-Sologub were difficult to define and legitimize. The Right to Be Helped illuminates the ways in which marginalized members of Soviet society

understood their social rights and articulated their moral expectations regarding the socialist state between 1917 and 1950. Maria Galmarini-Kabala shows how definitions of state assistance and who was entitled to it provided a platform for policymakers and professionals to engage in heated debates about disability, gender, suffering, and productive and reproductive labor. She explores how authorities and experts reacted to requests for support, arguing that responses were sometimes characterized by an enlightened nature and other times by coercive discipline, but

most frequently by a combination of the two. By focusing on the experiences of behaviorally problematic children, unemployed single mothers, and blind and deaf adults in several major urban centers, this important study shows that the dialogue over the right to be helped was central to defining the moral order of Soviet socialism. It will appeal to scholars and students of Russian history, as well as those interested in comparative disabilities and welfare studies.
